MedCore Group

• A GLOBAL HEALTHCARE ECOSYSTEM

Where Healthcare Meets Innovation Without Limits

Extending life through integrated excellence across clinical care, medical tourism, infrastructure, and healthcare financing.

A globally integrated, multi-disciplinary healthcare enterprise delivering accessible, innovative, and high-quality medical services across continents.

Extending Life Through Integrated Excellence

Everlast MedCore Group (EMCG) is a globally integrated, multi-disciplinary healthcare enterprise that delivers accessible, innovative, and high-quality medical services across continents.

Operating as a central hub, we connect all facets of healthcare — from direct clinical care and medical tourism to healthcare financing, medical education, and infrastructure development.

Our unique positioning as an "Integrated Healthcare Services & Medical Solutions Conglomerate" allows us to address healthcare challenges holistically, ensuring that advanced medical care is not limited by geography or financial barriers.

Vision, Mission & Leadership

Building stronger healthcare connections across borders

Our Mission

To empower health and advance nations by establishing a seamlessly connected global healthcare ecosystem that prioritizes accessibility, affordability, and clinical excellence.

Our Vision

To become the world's leading medical conglomerate bridging advanced healthcare infrastructure with emerging markets, ensuring every patient receives world-class treatment.

Leadership: Dr. Tadiwanashe Maravanyika

FOUNDER & CEO, PHYSIOTHERAPIST & GLOBAL HEALTHCARE ENTREPRENEUR

A dedicated Physiotherapy professional trained at Tier-1 medical facilities across India, including Max Super Speciality Hospital and Shalby Multi-Speciality Hospital. A former national-level multi-sport athlete for Zimbabwe, he brings an elite understanding of musculoskeletal health and high-performance patient recovery.

His journey exposed him to a stark contrast in healthcare accessibility between India's advanced infrastructure and Africa's emerging markets. This realization became the founding catalyst for Everlast MedCore Group — a conglomerate designed to bridge that gap at scale.

• Accessibility

• Affordability

• Clinical Excellence

• Global Trust

• Innovation

A Fully Integrated Healthcare Ecosystem

Operating across core divisions, creating a seamless continuum of care, innovation, and access.

1. Clinical Services

Comprehensive physiotherapy and rehabilitation centers delivering specialized care in sports rehabilitation, orthopedic care, neurological rehabilitation, and cardiopulmonary physiotherapy.

2. Medical Tourism

End-to-end cross-border healthcare access connecting international patients with accredited hospitals, teleconsultation services, and comprehensive treatment planning.

3. Healthcare Financing

Structured treatment financing solutions including payment plans, insurance facilitation, and financial advisory for medical care accessibility across borders.

4. Equipment Distribution

Bridging manufacturers and healthcare providers with diagnostic equipment, therapeutic devices, prosthetics, and orthotics focused on affordability in emerging markets.

5. Training & Internships

Clinical internships, exchange programs, and skill development training targeting students from developing nations to build the next generation of healthcare leaders.

6. Conferences & Expos

Large-scale international medical summits and expos for researchers, innovators, pharmaceutical companies, and medical students to exchange knowledge.

7. Infrastructure Development

State-of-the-art hospitals and specialized medical centers with advanced diagnostics, surgical units, and rehabilitation departments, built to meet international standards while serving local communities.

International Medical Tourism

EMCG Medical Tourism facilitates seamless cross-border healthcare, connecting patients from Africa and beyond with India's premier medical institutions. We specialize in making accessible, affordable, and high-quality healthcare a reality across borders.

Access to 50+ Partner Hospitals

Direct connections to internationally accredited medical facilities across India.

Up to 70% Cost Savings

Transparent pricing and structured treatments that offer significant savings without compromising quality.

Comprehensive Coordination Services

✓ End-to-End Patient Coordination

✓ Teleconsultation & Second Opinions

✓ Complete Visa & Travel Assistance

✓ Airport Pickup & Accommodation

✓ Dedicated Patient Coordinators

✓ Medical Records Management

Guided Recovery & Rehabilitation Support

Compassionate care beyond the procedure.

At the heart of EMCG is a profound commitment to patient recovery. Dr. Maravanyika and the team actively deliver specialized physiotherapy and rehabilitation, ensuring that post-treatment care is as rigorous and effective as the primary procedure itself.

Families Focus On Healing. EMCG Handles Everything Else.

★ ESSENTIAL

Guided Recovery Program

7-10 Days

For consultations, diagnostics, minor procedures, and short recovery stays. Includes basic physiotherapy assessment and follow-up planning.

★ ADVANCED (RECOMMENDED)

Healthcare Professionals

Collaborate on international patient care and second opinions.

Investors & Developers

Co-invest in healthcare infrastructure and medical facilities in emerging markets.

Education Partners

Host internships, clinical training, and medical exchange programs.

Why Patients & Partners Choose EMCG

Delivering unparalleled healthcare experiences and global synergies.

Transforming Patient Lives Across Borders

Whether you're a patient seeking world-class care, an investor looking for scale, or a hospital partner, EMCG is your strategic bridge.

Global Healthcare Coordination

Seamlessly bridging the gap between international patients and top-tier medical facilities worldwide with end-to-end support.

Patient-Centered Support

Every decision and process is designed with the patient's comfort, safety, and well-being as the absolute highest priority.

Trusted Medical Networks

Exclusive access to 50+ internationally accredited hospitals and renowned medical specialists.

End-to-End Recovery

Comprehensive post-treatment care ensuring a smooth and guided healing journey, backed by clinical expertise.

International Partnerships

A proven track record of successful collaborations with global healthcare stakeholders and institutions.

Innovation-Led Approach

Integrating modern technology, telemedicine, and progressive healthcare solutions across our entire ecosystem.

How EMCG Supports Your Healthcare Journey

A clear, guided pathway from initial contact to full recovery.

01. CONSULTATION

Free teleconsultation with our medical team to understand your condition and recommend treatment options.

02. PLANNING

Hospital selection, specialist matching, treatment cost estimation, and complete medical itinerary preparation.

03. DOCUMENTATION

Visa invitation letters, medical visa assistance, travel coordination, and flight booking support.

04. ARRIVAL

Airport pickup, accommodation arrangement, hospital admission, and dedicated on-ground patient coordinator.

05. TREATMENT

World-class clinical care at internationally accredited hospitals with real-time family updates and translator support.

06. RECOVERY

Guided rehabilitation, physiotherapy, post-operative monitoring, and structured follow-up care by EMCG specialists.

*"Through our integrated platform, we streamline complex medical logistics into a **seamless, transparent, and stress-free** experience for patients worldwide."*

From the moment a patient contacts EMCG, they are assigned a dedicated patient coordinator who handles everything from gathering medical records to organizing post-operative rehabilitation, ensuring the patient's only focus is on healing.
